# Highstage Client Requirements and Recommendations

# 1. Background

This document describes requirements and recommendations to Highstage client hardware and standard software that the Highstage application depends on.

## 2. Scope

This document is used by Highstage customers and Highstage personal.

# 3. Recommendations

Below are our recommendations for a Highstage client machine configuration.

The client machine will be able to run Highstage as client in configurations that don't comply with these requirement, but this is the official recommendation for a client setup.

Some Highstage functionality does require software not bundled together with Highstage, this software is specified in Software sections. This software might require other hardware specification than Highstage.

| No. | Component | Description |
|---|---|---|
| 1 | CPU | 2 gigahertz (GHz) or faster x86-bit or x64-bit processor with SSE2 instruction set. |
| 2 | RAM | 3 gigabytes (GB) RAM (64-bit) |
| 3 | Storage | 60 GB available Storage |
| 4 | Operating System | Windows-Pc: Windows 8/10/11<br>Linux-pc: Ubuntu 12.04 LTS<br>Mac: OSX 10.7 |
| 5 | Network Speed | Download: 10 Mbit<br>Upload: 10Mbit |
| 6 | Screen resolution | Min. 1280 x 720 |
| 7 | Software | Microsoft Office: 2016, 2019, Microsoft 365<br>Adobe PDF reader<br>Web Browser: Mozilla Firefox 90 or later; Apple Safari 10; or Google Chrome 95, or Microsoft Edge 95. |

> **Note**: Only one of the web-browsers need to be installed in order for the client to run Highstage
