Better support for mobile devices and small screens

Improved searchlists

Better folder/access to folder.Able to link parts to devices

Gate pass in action flows

I would like to control the columns in the references based on the form you are in. One size does not fit all!

Great but visuals were too hard to see

Excellent !!!!!

awesome 🌟

Great!

Good! Interesting presentations and great to meet likeminded.

Trevligt och intressant.

NordCad did not present their company. I still don't know what their line of business is

Excellent 👍

Interesting topics

Interesting

Nice food and coffee.Nice weather.

Great and interesting.

Good! Maybe help organize the networking among attendees

Very good. Good width of the topics. Please use a venue mester the airport next time

Visuels hard to read otherwise great

Good presentations, interesting new features.

Not all is equally relevant/interesting, but there are so many takeaways that it is paying back many times

Interesting and also to see new features

#11: How would you rate HUG 2023?

very interesting. but very hard to follow all presentstions on the screens

Enjoyed ut alit! Exciting getting a peak on the future HS. PS a bit hard to see the screen, and fresh air/ breaks in fresh air was a need. Thank hou!

Great getting information new and upcoming features and improvements.Great talking to other HS users

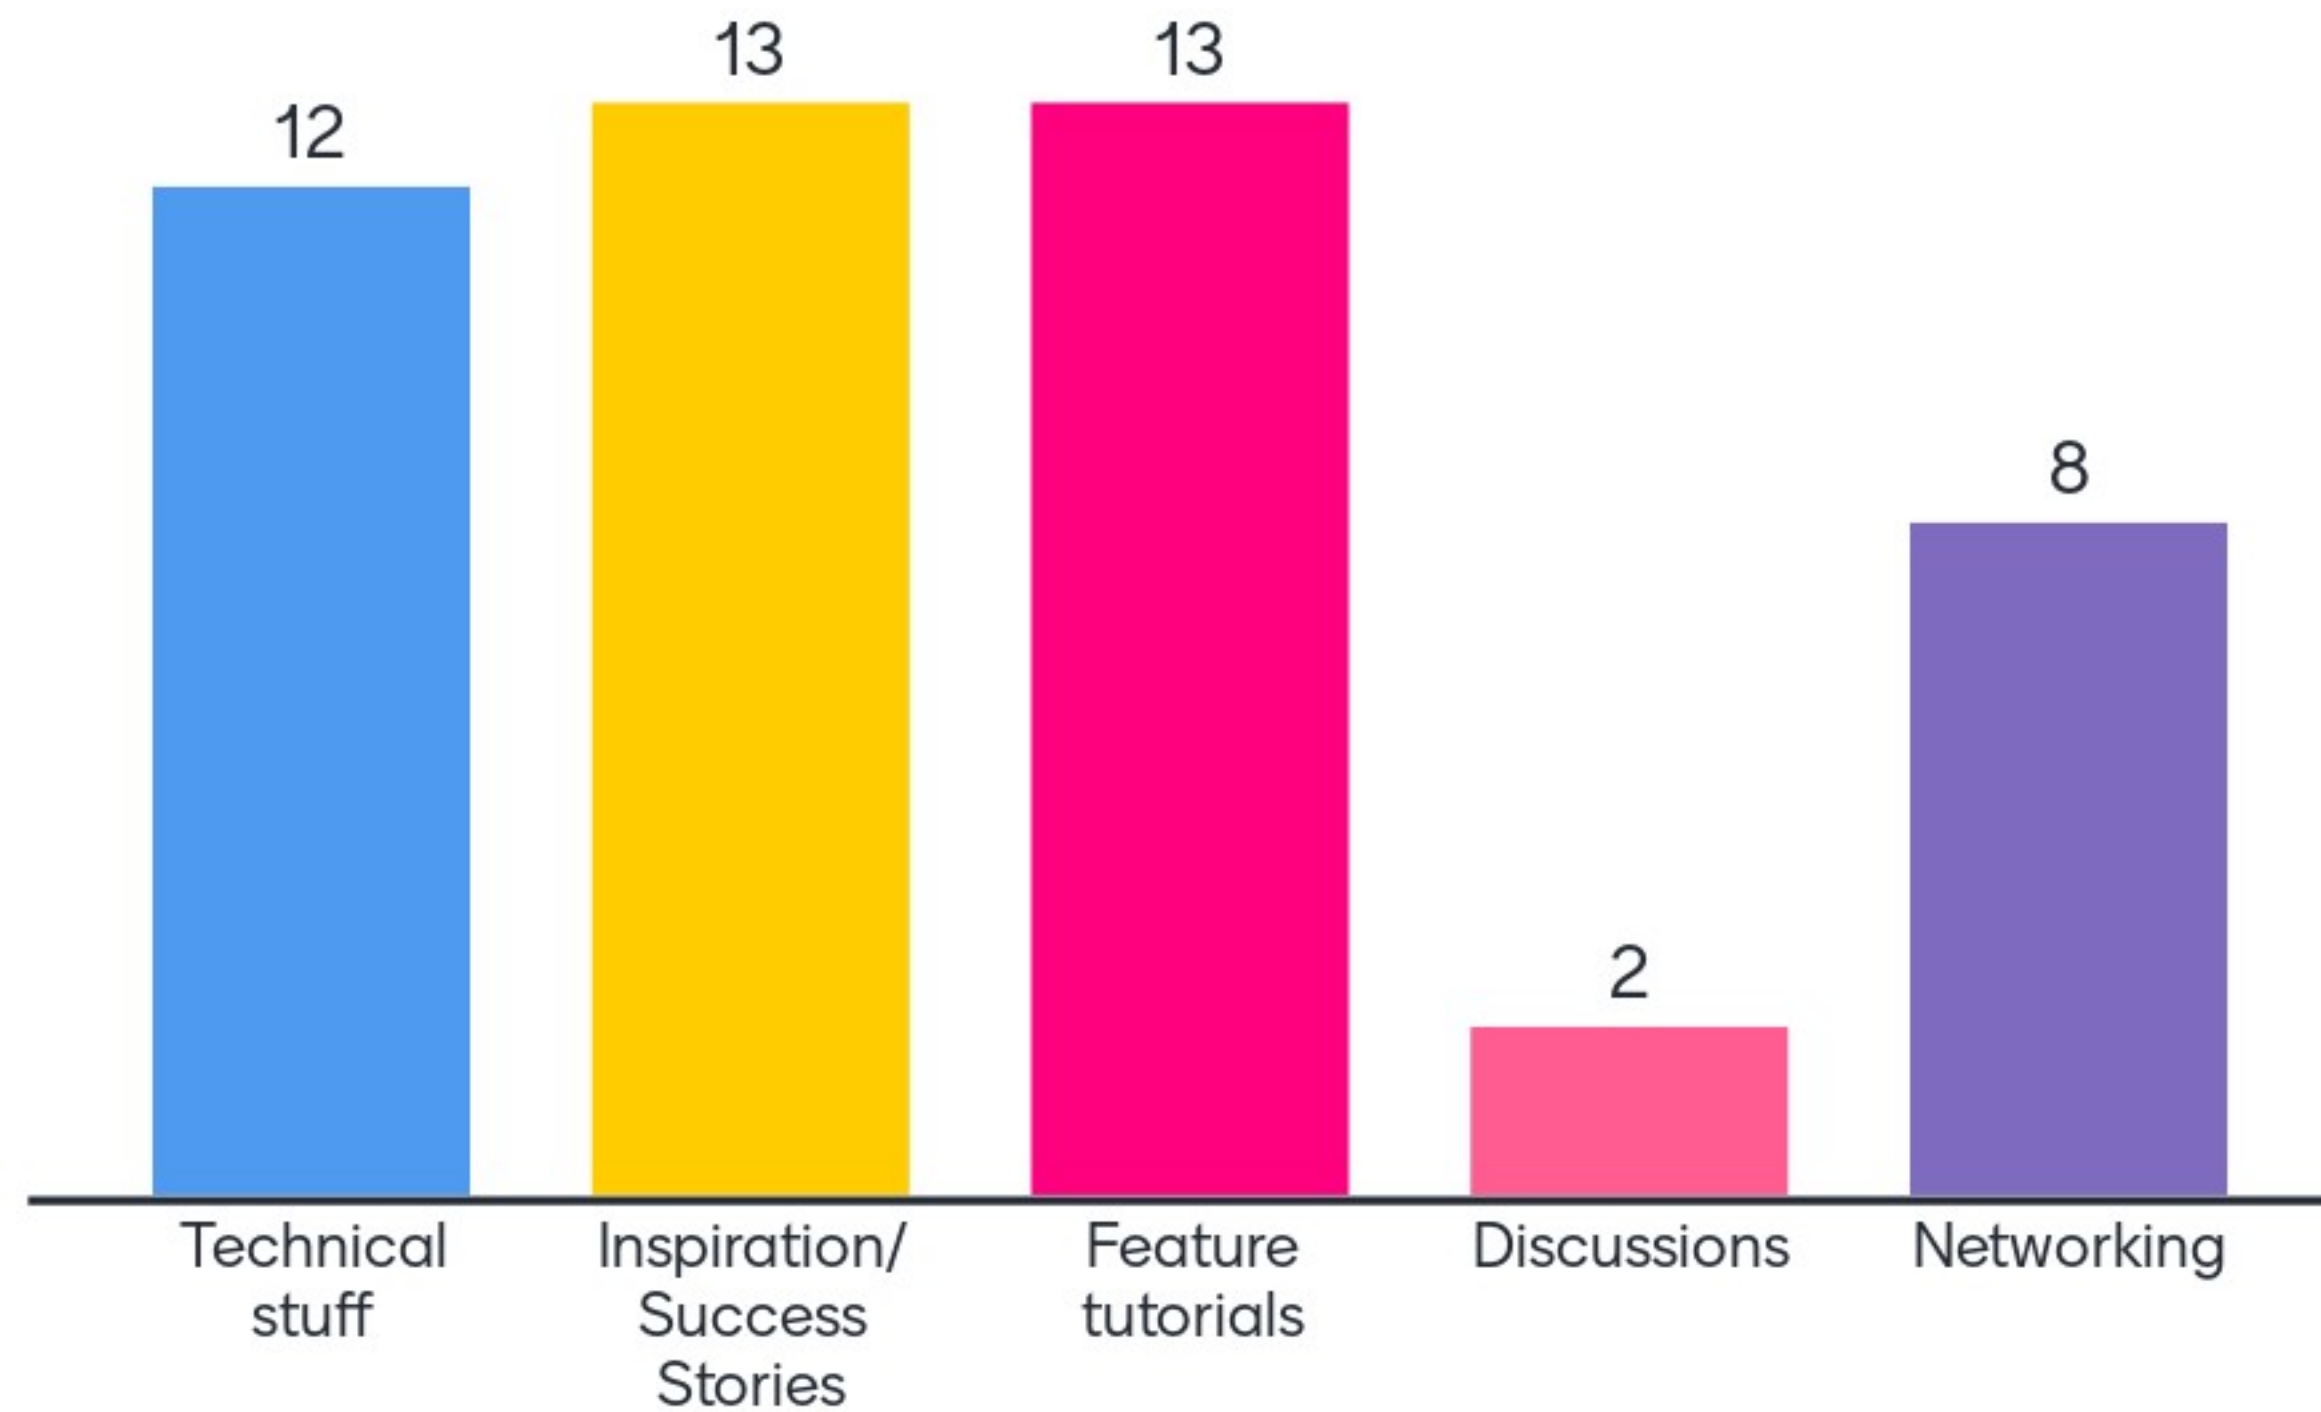

Great experiance to interact with customers and see how Highstage can be used.

Great to meet and talk with other HighStage users

9 af 10. Vanskeligt at se detaljer i indslagene. Særligt MCAD integrations.
